Use of Hospital Service Area definitions based on 1997-2001 inpatient immediate care discharges began with the 2002 Monograph. Numbers reported here are not directly comparable to those published before the 2002 Monograph. See the User's Guide to Inpatient Monograph Tables for details.
Also, after the 2000 Census, estimates for 1991-1999 were revised to better reflect actual population trends. Figures reported here for 1999 therefore are not identical to those published in the 1999 monograph.
