Use of HSA definitions based on 1997-2001 inpatient immediate care discharges began with the 2002 Monograph. Numbers reported here are not directly comparable to those published before the 2002 Monograph. See the User’s Guide to Inpatient Monograph Tables for details.
Patient days were adjusted by a total of eleven days for reporting year 2000 following the publication of the 2000 Monograph. Therefore the patient days reported here may not match those previously reported.

Use of HSA definitions based on 1997-2001 inpatient immediate care discharges began with the 2002 Monograph. Numbers reported here are not directly comparable to those published before the 2002 Monograph. See the User’s Guide to Inpatient Monograph Tables for details.
Patient days were adjusted by a total of eleven days for reporting year 2000 following the publication of the 2000 Monograph. Therefore the patient days reported here may not match those previously reported.

Use of HSA definitions based on 1997-2001 inpatient immediate care discharges began with the 2002 Monograph. Numbers reported here are not directly comparable to those published before the 2002 Monograph. See the User’s Guide to Inpatient Monograph Tables for details.
Patient days were adjusted by a total of eleven days for reporting year 2000 following the publication of the 2000 Monograph. Therefore the patient days reported here may not match those previously reported.

Use of HSA definitions based on 1997-2001 inpatient immediate care discharges began with the 2002 Monograph. Numbers reported here are not directly comparable to those published before the 2002 Monograph. See the User’s Guide to Inpatient Monograph Tables for details.
Patient days were adjusted by a total of eleven days for reporting year 2000 following the publication of the 2000 Monograph. Therefore the patient days reported here may not match those previously reported.

Use of HSA definitions based on 1997-2001 inpatient immediate care discharges began with the 2002 Monograph. Numbers reported here are not directly comparable to those published before the 2002 Monograph. See the User’s Guide to Inpatient Monograph Tables for details.
Patient days were adjusted by a total of eleven days for reporting year 2000 following the publication of the 2000 Monograph. Therefore the patient days reported here may not match those previously reported.

*Sex-specific population used in rate calculation.

Use of HSA definitions based on 1997-2001 inpatient immediate care discharges began with the 2002 Monograph. Numbers reported here are not directly comparable to those published before the 2002 Monograph. See the User’s Guide to Inpatient Monograph Tables for details.
Patient days were adjusted by a total of eleven days for reporting year 2000 following the publication of the 2000 Monograph. Therefore the patient days reported here may not match those previously reported.

Use of HSA definitions based on 1997-2001 inpatient immediate care discharges began with the 2002 Monograph. Numbers reported here are not directly comparable to those published before the 2002 Monograph. See the User’s Guide to Inpatient Monograph Tables for details.
Patient days were adjusted by a total of eleven days for reporting year 2000 following the publication of the 2000 Monograph. Therefore the patient days reported here may not match those previously reported.
