■ Statistically different from Vermont ◆ No Change ● Measure moving in right direction ● Measure moving in wrong direction

*Percent is age-adjusted to the U.S. 2000 population.

**Estimated counts are rounded to the nearest thousand and not age-adjusted.

^ Measures with data years other than 2017-2018. See [District Profile – Methodology](#) for details.

N/A = Value suppressed because sample size is too small or relative standard error (RSE) is >30.

Newport District Profile – Adult Health

Data points in the trend line are aggregated with two years of data.

For more information on methodology, and data years for specific measures, see [District Profile – Methodology](#).
