- **Other Business:**
  - **Legislative Update – D. Herlihy summarized pending bills of interest to the Board.**
    - S.12 - Sealing criminal history records – revises the statutes on expungement and sealing of criminal records. It is of interest because the Board at times needs to obtain and consider information about an applicant’s or licensee’s criminal history. Staff and the AAGs assigned to the Board will analyze the bill and monitor its progress.

- S.28 – Amendments to the legally protected health care provisions. The Board received a brief overview of the bill. One provision in Section 3 of the bill was identified as in conflict with the Board’s view on telemedicine prescribing. Dr. Eyler made a motion to approve the statement below. D. Philibert seconded the motion. The motion passed 15-0-0 with 2 absent.

*Section 3 creates a carve out to the statutory standard for prescribing via telemedicine. The current law, consistent with the Board’s longstanding position, is that it is unacceptable for a prescriber to rely on only a questionnaire when prescribing by telemedicine. The bill proposes to amend 26 V.S.A. § 1354(a)(33)(A) by adding an exception that would apply to only prescriptions of drugs to terminate a pregnancy.*

*The Board opposes that provision because Board members believe that prescribing by questionnaire alone, with no interaction between the patient and prescriber, does not constitute quality care. The Board’s position is that there must be some form of iterative communication – some back and forth between the prescriber and patient – as reflected in the Board’s policy on Telemedicine. Allowing a patient to obtain a prescription by only answering an online questionnaire with no exchange with the prescriber deters communication. Ironically, the findings at page 3, lines 17-18 of the bill include the following language describing the aspiration to “cultivate an environment where best practices in shared decision-making can flourish.” (emphasis added). The Board agrees with that aspiration and believes that two-way communication supports better care. Communication with the prescriber, even if only by a text exchange, allows the prescriber a better basis on which to prescribe. Allowing a prescription to be issued based on just a questionnaire deters communication and thus avoids shared decision-making.*

- **It was noted that a bill has not yet been filed regarding the issue of additional pathways to licensure for internationally trained physicians.**
- **[The agenda item regarding correction of item from the December 2024 meeting was omitted.]**
- **Convene hearing to discuss any stipulations or disciplinary matters that are before the Board (12:30 PM):**
