					The Department of Public Safety, in collaboration with the Agency of Human Services proposes to utilize Opioid Settlement funding to	
					extend and improve facilitation of the Governor's Public Safety	
					Enhancement Team (PSET). Opioid funding would be utilized to	
					augment the work of PSET by adding the dedicated focus of external	
					consultants who would improve data exploitation and strengthen the liaison between local projects and PSET leadership. The Situation	
					Table is a proprietary process managed and facilitated by Cordata	
					Healthcare used to organize community response to individuals and	
					families facing acutely elevated risk. The process is a structured	
					organization of community resources and data sharing driven by	
					multiple community stakeholders and designed to break down barriers that separate various response agencies. By focusing on pre-	
					incident intervention, the public safety and human service	
					collaboration builds trust and finds creative ways to assist those in
